Other:
aPHR certification.
Syracuse University,
Syracuse, NY

Web Development Work

Query-app - http://query-app.herokuapp.com / Back-end

- GitHub Link: https://github.com/devpointlabs/query-app
- Learning Management System designed to send quizzes to students after lectures to give teachers feedback on what info students retained.
- Worked on database architecture design, user authentication, teacher side UI, question forms, grading system, and production deploy.
- **Built With:** SQL, Ruby on Rails, React, Styled-components

Recreation site - http://res-sites.herokuapp.com/ Front-end

- Website to display information about national parks and allow users to pick their favorites.
- **Built With:** React hooks and classes, context API, styled-components, and React-reveal animations.

Concept Sites

- **https://cicadapurp.github.io/time-travel/**
  - Concept site for a fake time travel tourism with css and flexbox.
- **Javascript Art - https://cicadapurp.github.io/start-three.js/**
  - Basic webGL interfacing with Three.js to make 3D animations

More projects on my portfolio website, please note, it may take Heroku servers 30 seconds to wake up.
